Hi Jim,

Attached is a workplan to conduct subsurface investigations at the Mayflower Mill that we received from Sunnyside Gold. They are going in the field in the next couple of weeks and we would like to review and provide comments to them prior to the work taking place.

Attorney Client/Ex. 5

**Attorney Client/Ex. 5**

We are working on a QA review of this document, but I am wondering if you would have time to do a quick-turn-around technical review of this using your expertise. I am currently very busy with Standard Mine, so please let me know if you have time to

**Attorney Client/Ex. 5**

Paula and Brent,

Attached you will find investigative work plans prepared by Sunnyside Gold Corporation as part of Sunnyside's continuing participation in the collaborative effort to improve water quality in the Animas River.

# Attorney Client/Ex. 5

Implementation of the attached plans except for the airborne geophysical survey is planned for August and September.

I would appreciate it if you would provide comments to me as soon as practicable.

Thanks,

Pat
